WELCOME TO PAHAL SOLAR

We are a leading Solar Module Manufacturer and installation firm having JVC with multinational Japanese/Spanish Corporation "UNIVERGY". We offer turnkey services and the latest in technology. We have established ourselves in the domestic as well as international market, providing the best in value and service to our esteem customers. We are also an OEM Company delivering an unmatched quality at a competitive price.

We are the producer of the range of Solar PV Modules starting from 3Wp to 740Wp. We have a fully automatic production line with an annual production capacity of 400 MW and aggressively expanding to 800 MW.

VISION

Climate change is a "crisis multiplier" that has profound implications for international peace and stability, we have pledged to embark on the journey of saving our endangered planet. Our vision is to add to the effort of channelizing the abundantly available sunlight by producing high-quality and durable solar panels and installing them to harness solar energy.

MISSION

Our mission is to make Solar Installation affordable and sustainable; by doing so its reach can be extended towards the capacity of an ordinary human being, in turn creating a win-win situation and limiting global warming to 1.5°C.

CORE VALUES

Educate and empower the end-user are our values. Within this process, we meet our clients to help them define their goals, evaluate their options and make firm and confident decisions. We take care of the entire process from the designing to Installation, commissioning, and maintenance so that going solar becomes seamless and hassle-free process.

PAHAL SOLAR is Solar PV Module Manufacturer using **Monocrystalline** and **Polycrystalline** solar cells.
